

## Microsoft BPOS online

Microsoft's Business Productivity Online Suite (BPOS) is a set of Microsoft hosted messaging and collaboration solutions, that include Microsoft Exchange Online, Microsoft SharePoint Online, Microsoft Office Live Meeting and Microsoft Office Communications Online. BPOS is priced as a bundle package and has two flavours, the full version which integrates with your present desktop systems (e.g. Outlook) and also comes with the web clients or the 'deskless' version which contains just the web clients. Each application can also be bought separately and the prices are shown below.

### What can BPOS do for you?

Microsoft Online services have been developed to make businesses more productive. It gives employees greater ability to communicate and collaborate on documents, file sharing, online meetings, project collaboration and workflow management. Essentially, it improves time management so users can get on with the more critical day to day tasks.

The services are hosted by Microsoft across in their global data centers which TechQuarters will help you migrate to and manage. Your company data is backed up across Microsoft's dedicated server infrastructure, with multiple layers of security and because it's online it's accessible from any web browser.

### What are BPOS benefits?

- ✚ More productive workforce.
- ✚ Faster working environment
- ✚ Secure data backed up online
- ✚ Business continuity as you have access from any internet browser
- ✚ Flexible working as users can access their data from home
- ✚ Web access to all your data
- ✚ No large scale up front costs, as all the servers are provisioned
- ✚ Monthly subscription fee
- ✚ Better on cash flow
- ✚ No payment for future upgrades, as MS upgrade the software and hardware for free
- ✚ 99.9% SLA for uptime from MS
- ✚ Microsoft multiple layers of security for your data
