

TQ Backup online

TQ Backup is a business level online backup service from TechQuarters, which is secure, reliable and easy to use. It backs up your selected company data, securely and safely over the internet due to the high level of encryption employed.

The data is then safely stored on the award winning, fully resilient Data Centre with 1Gb links and then replicated to a secondary storage site. As well as standard file restores, what really makes this service stand out from other online backups is TechQuarters returns your data on a 'swap in (NAS) device', within hours of a disaster, so you don't have to wait for time consuming file downloads.

How TQ Backup works

TQ Backup works by setting up a secure encrypted link from an on-site Network Attached Storage (NAS) device to the TechQuarters data storage center. Data is then replicated 3 times a day by default. It only replicates the data that has changed since the last copy was made. You can save up to 100 versions of data replicated to the storage facility. In the event of data loss we will restore your files immediately upon request. Secondly, if your on-site NAS device fails and needs repairing, we will copy all your data from the last copy onto a 'Swap in NAS' device and bring it down to your site within 8 hours of the failure, avoiding the need to wait for long file downloads and for a new NAS device to be delivered.

The TQ Backup Benefits

- ✚ Automatic backups
- ✚ Copies made 3 times a day or more
- ✚ Up to 100 versions can be saved
- ✚ Files stored securely off-site
- ✚ Data accessible instantly
- ✚ Retrieve multiple file versions
- ✚ Unequalled data security
- ✚ No need for tape changing
- ✚ No need for expensive hardware
- ✚ No need for tapes to be picked up
- ✚ Business continuity solution
- ✚ Backed up hourly, daily or weekly
- ✚ Individual files can be backed up
- ✚ Full resilient service platform
- ✚ Automatic reporting
- ✚ Swap-on-NAS device in the event of a disaster, on site within 8 working hours.

How much does it cost?

| | Price £ |
|--------------------------------|---------|
| NAS device (one off cost) | £400 |
| Replication license (one-off) | £175 |
| Pricing storage levels/month | |
| Up to 50Gb | £35 |
| Up to 100GB | £60 |
| Up to 200Gb | £110 |
| Up to 500Gb | £250 |
| Up to 750Gb | £325 |
| Up to 1Tb | £500 |
| Greater than 1Tb | 50p/Gb |
| (Increases in levels of 200Gb) | |
| All prices excluding VAT. | |

'TechQuarters decommissioned our servers and moved our company data onto a local Network Storage device (NAS). We sleep at night knowing this data is backed up automatically, 3 times a day, to the TechQuarters storage facility.' Rob, Operations Director of The Teaching Awards
