

# USER & TECH TRAINING

## WHAT IS IT?

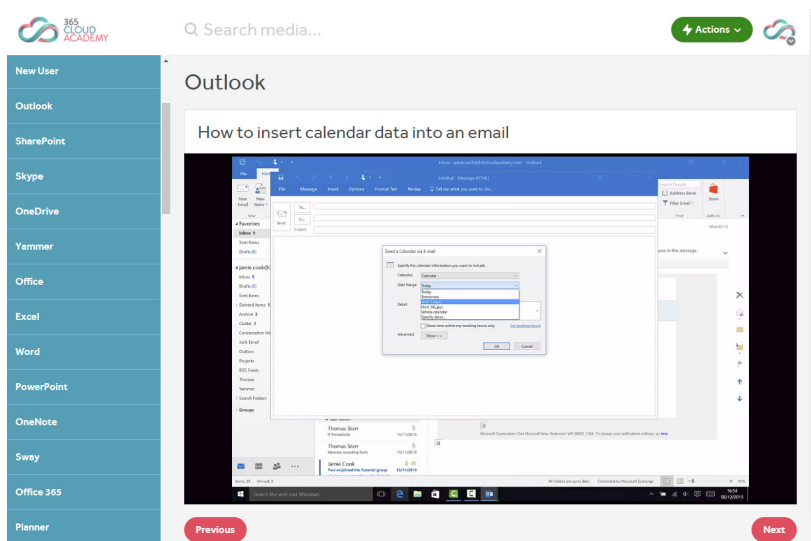

The 365 Cloud Academy understands that high-quality, efficient training is essential for organisations.

That is why we have created an innovative e-learning platform housing thousands of minute-long training videos on how to use all the applications within Office 365.

The e-learning portal has been designed to get your users trained up on all the Office 365 applications using self-led learning and targeted searches. Users have 24/7 access to both the online video portal and the mobile training App; consisting of even shorter, snippet videos, for on-the-go training.

## WHY TRAIN WITH US?

- We've trained over 18,000 users on Office 365 and have built up a wealth of knowledge based on what our customers want to know
- As a Microsoft Gold Partner – we're always up to date on the latest Microsoft Office 365 updates and releases
- Clients get a reliable training tool that ensures a guaranteed return on investment; Increasing efficiency by up to 4 hours per week/per user
- Our solution is tailorable to each organisations unique training requirements - with the option to create bespoke videos and channels

*"The minute long videos really helped all our users become more confident using Office 365."*

David Filmer, Training Manager - TSG

## WHAT'S INCLUDED?

### Online E-Learning:

- E-Learning Portal access
- E-Learning Mobile App access

### One-off Sessions:

- Classroom training
- VIP training
- Webinar training
- Technical training

## WHAT ARE THE BENEFITS?

- Reliable user training
- Smarter working
- Return on investment
- Cloud adoption
- Tailorable solution
